Park Maintenance

Communications and Accountability

Anchorage School District Partnership

Parks and Recreation

Our mission this past two years has been to build a healthy community through people, parks and programs. Our commitment has been to build the community by connecting people to people, connecting people to the land and connecting people to their neighborhood. We have had many accomplishments (Establishment of the Park District Concept, Establishment of the Park Foundation, Creating the Clean & Green / Safe & Secure Program, Successful Leveraging of State and Federal Grant Monies for REAL Projects) but we continue to face barriers that make success difficult or challenging at best.

We have a large backlog of deferred park and trail maintenance as facilities continue to age

We are under funded in almost every division with increased demand for additional services

We lack staff resources to continue at the level of excellence desired by the community

As a result of the April elections it is clear we must reevaluate our priorities to take advantage of our strengths and to better respond to the public's concern about spending. To accomplish this we have outlined our short-term and to continue the rebuilding of the park and recreation department.
