Subject: Fwd: FW: Request for Comments on C-ER Land Use Regulations

Our family feels strongly about having Eagle River maintain it's small town flavor. We recently had a poorly informed developer try to put through putting homes on a piece of wetlands that would have required major landfill. The hills around Eagle River are becoming scarred from high profile development that is causing erosion. We had the developer who last year clear cut 8 acres of downtown Eagle River to place high density housing. Much of the high density housing going up in Eagle River is poorly constructed and has already led to problems with frost heaving and poor drainage. We support having the community step up and give notice that we want to preserve the flavor of Eagle River.

Thanks

Rosalyn Singleton
