

Donna B. Ferguson
Alaska resident since 1967

I see no reason for these restrictive regulations on 2.5 acres in Chugiak. Why can't I can I sell my extra fruit crops or anything else I grow in my garden? Why can't I have a horse for myself and board another to defray expenses as well as company for my horse?

I find these restrictions extreme and unalaskan! I keep poultry and see no reason to have to change. I have kept my own livestock for almost 30 years and see no reason why I should have to change my lifestyle. You want to restrict my ability to store my vehicles to maintain my livestock and you want to also limit the size of my barn for my animals.

I think personal greed is the motivation for this title and it is not in the best interests of this community. This is an erosion of my rights and an invasion of my privacy.

You people need to go back to the lower 48 and stay there.
