

Resolution requesting and support for a Distinct Chugiak-Eagle River Long Range Transportation Plan

Whereas, the Birchwood Community Council recognizes the importance of effective transportation planning that meets the unique needs of the Chugiak-Eagle River community;

Whereas, the current Long Range Transportation Plan fails to adequately reflect the priorities and requirements of our community, particularly in relation to transportation infrastructure within large new developments;

Whereas, the existing area-wide transportation planning criteria have placed significant emphasis on alternative transportation modalities and infrastructure for low-income and minority communities, leading to a lack of focus on the specific needs of the Chugiak-Eagle River area;

Whereas, the residents of Chugiak-Eagle River require a tailored approach to transportation planning that considers local community needs, growth patterns, and infrastructure requirements;

Therefore, be it resolved that the Birchwood Community Council requests the establishment of a distinct Chugiak-Eagle River Long Range Transportation Plan that prioritizes the needs and standards of our community;

Be it further resolved that this new plan should incorporate local input, address the critical infrastructure needs within new developments, and ensure that all transportation modalities are considered in a balanced manner that serves the residents of Chugiak-Eagle River effectively.
