6. A/C Road Closure Protocol
During January's meltdown, accidents and hazardous driving conditions caused APD to close the A/C bridge for several hours. In response, GHCC wrote to municipal officials explaining problems created when we were cut off from the city, and asking MOA how it will avoid a similar situation in the future. MOA has now reviewed and formalized its Gov't Hill access protocols. Representatives from MOA, APD, and the AFD will explain the newly strengthened emergency protocols and GH access procedures.
